

Save Me

Roky Erickson

Save me
This child has gone for you
Save me
We don't want to waste any time
Save me
I've been waiting in a pew
Save me
Would you please come and make yourself mine
I'll be yours
I will not forsake you
I'll be yours
I will not forsake you
Would you please understand
I want to learn all I can

Show me
On your own will
Show me
I won't use you without "knowing"
Show me
I can wait until your chalice is filled
Show me
I can wait until you are ready for the showing
Show me
I'm not going to misuse or abuse you
Show me
I won't thrust through or quit you but
My relativity includes through you
Would you please know I'm ready
When it's you, you, you

Closing of eyes
One doesn't deceive
Save
Your energy
You are
Who in I believe
You are who allows me to conceive
