

To Think

Roky Erickson

I never thought I'd see your face
Looking the way it did that night
I never thought I'd keep this place
That makes me feel so right
I never thought the world in our eyes
Could be so innocent and right

And how can we be so into view
And be so completely out of sight
The dew is so moist and things show up
So magical and right
To know that we are in the light
And everything is coming up our way
Hey hey hey
What to do and what to say

I never thought you'd come again
To think that you chose me
How thrilling to think my love would win
Beautiful destiny
To think it all is there the next day
Hey hey hey
To think it all is that way

We'll always be in that night
It showed us we were right
And all we may be is more right
And we don't have to try as our fingers fly
Doing things hidden to some minds
My love and I fit so tight for flight
Day and or night
To think it always is our time

We'll always be in that night
It showed us we were right
And all we may be is more right
And we don't have to try as our fingers fly
Doing things hidden to some minds
My love and I fit so tight for flight
Day and or night
To think it always is on time
