

# Christmas In The Sun

Rolf Harris

Christmas in the sun  
Come on down and join us for a Christmas in the sun  
Shaded by the jackeranda trees  
Your picnic lunch is ready any time you please  
Or spread yourself a towel on the sand  
And let the world go by

Christmas in the sun  
Come on down and join us for a Christmas in the sun  
Underneath the summer sun

Crazy summer days  
In the heat the treetop shimmer through the haze  
The kids are splashing water in the shade  
Or grabbing chunks of ice and cooling lemonade  
And Dad's got a cold one from the fridge  
To help him brave the Barbeque

Christmas in the sun  
Come on down and join us for a Christmas in the sun  
Underneath the sky of blue

As a kid I dreamed of...  
Icicles - icicles  
Jingle bells - Jingle bells  
Santa in his sleigh dashing by  
Jack Frost nipping gently at my nose  
And snow flakes drifting from the sky  
Then I'd wake and find it was...

Christmas in the sun  
Come on down and join us for a Christmas in the sun  
Underneath the summer sky

Christmas in the sun  
Come on down and join us for a Christmas in the sun

And even though my childhood seems a billion dreams awaaaay

I can see it still  
And I always will

And I still have that sunshine in my heart every Christmas day

It can move me still  
And it always will  
I wish you all you that sunshine in your heart

Every single day

Yeah what are you going to get me for Christmas lads?

WHATEVER YOU WANT

What did you have in mind?

WHATEVER YOU LIKE
