

# Black and White

Rollins Band

I've been around  
Turned around  
Made to see  
New eyes burning in my head  
Color bends  
Liar friends  
New eyes seeing the black and white  
Ripped away  
Burned away  
Strength and beauty live  
In the black and white  
Black and white  
Can't hide bright light  
Shining through the darkest night

In the black and white  
new eyes  
Hate lies  
Sun blind  
Everything to see  
Sun light  
Blind light  
Burned hollow  
Burned clean  
Everything to see  
Find light  
In dark  
Blind eyes see  
All the colors lie  
I'm an only man  
The lies hurt my mind so I think you understand  
Color driven madness was all I used to see  
Living in the black and white  
Breathing in the black and white  
Being what there is to be  
Seeing what there is to see  
Is the only thing left for me  
I'm living free in the black and white  
Colors lie  
Try to hide  
You can't hide  
In the black and white
