

## Change It Up

Rollins Band

You say your job is a pain  
It's pulling you down the drain  
I think you'd rather complain  
Than quit it

He knocks you to the floor  
But you go back for more when you could walk out the door  
He's a loser honey, leave him

Win lose or draw  
I want it all  
Life's so short  
No safety net

You get what you get  
What you settle for

You say your town is too small, you live your life at the mall  
You can't have it all until you leave it behind you  
And you wait for the day when luck will come home to stay  
You never get your way  
You go out --you make it

Win lose or draw  
I want it all  
Life's so short  
No safety net

You get what you get  
What you settle for

Don't justify your complacency to me  
That's not an adventure, that's a job  
You say you lack what it takes  
You say your face lacks a face  
There's a fact you gotta face  
They broke the mold when they made ya

Living under a cloud  
Living quiet or loud  
Another face in the crowd  
Or one in ten million

Win lose or draw  
I want it all  
Life's so short  
Win lose or draw  
I want it all

Life's so short, life's so short, life's so short, life's so short ma  
n
