

## Up for It

Rollins Band

I take time thinking about  
the moves I'm gonna have  
to make  
I take time thinking about  
the rules I'm gonna have  
to break  
it's always push and shoving  
sometimes it comes to nothing  
sometimes it's more than a  
mere mortal man can take

I'm up for it  
I'm up for it  
I'm up for it  
I'm up for it

the day to day can become such a trip  
the mediocre can make you lose your grip  
it's all on you and what you've got  
you can play it cool or make it hot  
I pay the price and take my shot

stay up for it  
I'm up for it  
I'm up for it  
I'm up for it

burning out, wearing thin  
can't believe the shape you're in  
there's always somebody  
who's gonna try to make  
it worse  
there's always a line to stand in  
as long as I'm still standing  
you best believe I'm  
gonna make other plans

stay up for it  
stay up for it  
stay up for it  
up for it, up for it  
I am up for it man

time, time, stop wasting mine, mine  
don't stand their crying, crying  
just make up your mind  
time, time, stop wasting mine, mine  
don't stand their crying, crying

stay up for it  
stay up for it  
stay up for it  
stay up for it man

I take time thinking about what  
I'm gonna have to do

what it takes, how it is  
and when I'm gonna light  
the fuse  
all this push and shoving  
in the end all amounts to  
nothing  
I'll never get a second chance  
looking me in the face

I'm up for it  
I'm up for it  
I stay up for it  
I stay up for it

the day to day can become such a grind  
the mediocre can make you lose your mind  
it's all on you and what you've got  
you can play it cool or make it hot  
I pay the price and take my shot

stay up for it  
I'm up for it  
I'm up for it  
I'm up for it

? or now in future shock  
by the numbers ?? stop  
there's always somebody's  
who's gonna try to take  
your brain  
as long as they're selling something  
I'll be smelling something  
I've seen them come and go so many times

I'm up for it  
I stay up for it  
I stay up for it  
I stay up for it  
now what else are you gonna do?
