

What's the Matter Man

Rollins Band

Push hard to an alien land,
Where you never know what's real
Just a card in someone's deck,
You get dealt and that's the deal

What's the matter, man? Is the time not right?
What's the matter, man? Are you wrapped too tight?
What's the matter, man? Is the feeling dumb?
What's the matter?

What's the matter, man? What's the matter with you?
What's the matter, man? What's the matter with you?
Hooked up to a million tubes
Addicted to another's dream
I'm not averse to being alone
Without ever getting what you need
I'm not averse to losing it all
So many ways to pay and pay
If it means I get to keep my mind
If I get to leave it all behind

What's the matter, man? Is the time not right?
What's the matter, man? Are you wrapped too tight?
What's the matter, man? Is the feeling dumb?
What's the matter, man? What's the matter with you?
What's the matter, man? What's the matter with you?
What's the matter?

What's the matter, man? What's the matter with you?
What's the matter, man? What's the matter with you?
Go straight, now you're gonna pay

Now you're gonna pay

Now you're gonna pay and pay and pay
What's the matter, man? Are you wrapped too tight?
What's the matter, man? Is the time not right?
What's the matter, man? Is the feeling dumb?
What's the matter, man? What's the matter with you?
What's the matter?
What's the matter, man? What's the matter with you
