

Just Once Once More Three Times

Rome

Now I know
Just what you need babe
Come on over here
Let me hold you
Theres a few things
You just might not know sugar
I'm so into you
and i love to see you smile

so when it's good love
coming down baby
I've got to make you feel just right baby
I love to hear you moan
I love to feel you groan
my baby, oh
just once, once more, three times baby

now take one moment
baby let's take our time
we got all night
we can drink the finest of wine
just take my rhythm
take it in stride babe
i love to feel your body all over mine

so when it's good love
coming down baby
I've got to make you feel just right baby
I love to hear you moan
I love to feel you groan
my baby, oh
just once, once more, three times baby

i've got to make you
feel just what it is
i love i love i love
i gotta make you call my name

I've got to make you feel just right baby
I love to hear you moan
I love to feel you groan
my baby, oh
just once, once more, three times baby
