

Push Me Away

Ron Pope

There is blood upon your lips
I tried to seal this with a kiss
And there are marks upon my neck
Tried to brand me before I left

If you wanted me to stay
Why'd you push me away?
If you wanted me to stay
Why'd you push me away?

On the street you smoke your cigarettes
And when we meet, well I know you have
You swear you quit months ago
Why you'd lie, I never know

If you wanted me to stay
Why'd you push me away?
If you wanted me to stay
Why'd you push me away?

And we don't see, eye to eye
By design...

When it rains I will pull you in
And I will ask for your confidence
And with your hands upon my face
I will wait for a better day

If you wanted me to stay
Why'd you push me away?
If you wanted me to stay
Why'd you push me away?
