

# Shoot Out the Lights

Ron Pope

City lights the water as the snow forgets the sky  
And we're staring at the bridges just like every other night

We've been watching for a miracle  
We're praying for a sign  
When the cure is made of poison then it's hard to rest your eyes

If it's time  
Oh  
Lord  
Shoot out the lights  
Shoot out the lights

Heavens shake with anger and the clouds  
They curse the ground  
And I'm screaming for an answer but the darkness blinds me now

We will not survive on misery  
We will fill ourselves with love  
We are searching  
We are hopeful  
We are anything but lost

If it's time  
Oh  
Lord  
Shoot out the lights  
Shoot out the lights  
Shoot out the lights  
Shoot out the lights  
Shoot out the lights

I see the stars in black and white  
I pray to God most every night

I see the stars in black and white  
And I pray to God most every night  
(Shoot out the lights)

I see the stars in black and white  
(Shoot out the lights)  
(Shoot out the lights)  
And I pray to God most every night  
(Shoot out the lights)  
(Shoot out the lights)

And I see the stars  
I see the stars  
(Shoot out the lights)  
I see the stars  
I see the stars  
(Shoot out the lights)  
I see the stars most every night  
(Shoot out the lights)

(I see the stars in black and white)  
Shoot out the lights

Shoot out the lights  
(I pray to God most every night)  
Shoot out the lights

Shoot out the lights  
(I see the stars in black and white)  
Shoot out the lights  
Shoot out the lights  
(I pray to God most every night)  
Shoot out the lights

(I see the stars)  
(I see the stars)

I see the stars in black and white  
And I pray to God  
I pray to God
