

Feel For You

Ron Sexsmith

How I hate to see you this way
I feel for you, Love
Is there nothing I can say
To cheer you up?

For I see your face
Is filled with so much sorrow
Wish I could make it disappear
Before this night is through with us

I feel for you, Love

How I've tried to see the good side
I feel for you, Love
You see all the years going by
And you can't get off

But it's not that way
Time is all we're taking
For our own sake
Just let it go
Before it makes a fool of us

Before its too late in the game
To change anything
Is it too late in the game
To change anything?

How I hate to see you this way
I feel for you, Love
Is there nothing I can say
To cheer you up?

For I see your face
Is filled with so much sorrow
Wish I could make it disappear
Before this night is through with us

I feel for you, Love

Is it too late in the game
To change anything?
