

Love Shines

Ron Sexsmith

In every nowhere town
There are somewhere dreams
Patiently holding out
To grab the brass ring
To see their dream come true
Sends a spark
Through dark end of the mind
'Til light appears in happy tears
That's where my love shines

If we've disquiet in mind
There are silent days
To see ourselves defined
By all we embrace
And I long to hold you
With all my might
Through the night our hopes combine
To ignite our eyes like fire flies
That's when our love shines
Our love shines

In every nowhere town
There are somewhere dreams
Gracefully reaching out
To pull love's strings
I've seen what love can do
I understand
It's like the candle glowing in the wine
It fills a heart with silver stars
That's where my love shines

When light appears in happy tears
That's where my love shines
My love shines

My love shines [repeat]
