

Seem To Recall

Ron Sexsmith

Well a bad day is when I'm up in the air
A better day is when I'm in repair
Like this it's always been
Oh but then again I seem to recall a time when

The day ahead was an open book
For every page I read a second look
What I knew then somehow
Can't put my finger on it now but I seem to recall doing without

I seem to recall, seem to recall
When a daydream
Seemed to be all, seemed to be all
I'd take with me
My where withal I seemed to recall

Now we're bummin' round feeling awkwardly at home
Admits the dumming down and the talk shows
With nothing much to say
Wasn't always this way I seem to recall a brighter day

I seem to recall, seem to recall
When your light
Seemed to be all, seemed to be all
I'd go by
After nightfall I seem to recall

What I knew then somehow
I've put my finger on it now
I seem to recall and there was no doubt

I seem to recall, seem to recall
When your love
Seemed to be all, seemed to be all
I was so sure of
It could break my fall, I seem to recall
My where withal, I seem to recall
