

She Does My Heart Good

Ron Sexsmith

Lonely days are over
Those empty nights have gone for awhile
The world upon my shoulder
Don't feel so heavy when she smiles
I knew that it would
She does my heart good
She does a heart good

Just to know she needs me
I'd send my troops over enemy lines
For nothing can defeat me
With her love on my side
I would if I could
She does my heart good
She does a heart good

At the first sign of fear I would fire
Into the whites of their eyes
I'd send all my dreams and desires
Up to the benevolent skies

My soul was bent on leaving
I had no pulse I was just a flat line
My lungs were barely breathing
When her eyes met mine
I'm out of the woods
She does my heart good
She does a heart good

She does my heart good
She does a heart good
