

# These Days

Ron Sexsmith

Promises are made to be broken  
Haven't you heard?  
He said he'd never break your heart

Now haven't you learned?  
You believed in the words  
In all that they meant

Oh, but love is not some popular song  
Filled with empty sentiment  
That's what passes for love  
That's what passes for love these days

It won't take a miracle, darlin'  
Just keep it real  
This world can make us cynical, darlin'

I know how it feels  
You took it to heart  
What they said on the screen

Oh, but love is not just playing a part  
In some very scripted scene  
That's what passes for love  
That's what passes for love these days

No one can complete you or make you whole  
But love will come to greet you half way  
Though the streets are never paved with gold

Promises are made to be broken  
Haven't you heard?  
He said he'd never break your heart

Now haven't you learned?  
You believed in the words  
In all that they meant

Oh, but love is not some popular song  
Filled with empty sentiment  
That's what passes for love  
That's what passes for love  
That's what passes for love these days
