

Thinking Out Loud

Ron Sexsmith

Thinking out loud is all I'm doing
Trying to raise my love above these ruins
With each song, I kick it around
Thinking, my love I can tell

There's a load on your mind
If we poured ourselves
Like this bottle of wine and let it flow
We'll figure it out, thinking out loud

But it's hard to think with all the racket
Going on inside our heads
All this worrying is getting us nowhere
Let's go somewhere instead

Just thinking out loud
Is it all we're good for?
Trying to raise our love
But always falling short

Heaven knows what it's all about
Thinking out loud
With each song, I kick it around
Thinking out loud
