

# Close Your Eyes

Ronan Keating

I've been lost about a hundred million times  
I've been searching for some freedom in my mind  
Everyday feels like a battle deep inside  
Leavin' all the love and innocence behind

If you want something then baby come and get it  
I've been lost a million times an I don't regret it  
If your colours wanting to shine and just can't speak  
Baby I'll be the one to send you right to sleep  
When you close your eyes

Is it just another way to feel alive  
Everyday is moving like the speed of light  
And I'm comin' to the point of no return  
Leavin' all the love and innocence to burn

If you want something then baby come and get it  
I've been lost a million times an I don't regret it  
If your colours wanting to shine and just can't speak  
Baby I'll be the one to send you right to sleep

When you close your eyes  
When you close your eyes  
When you close your eyes  
When you close your ey.ey... eyes

Once you've been there  
She don't wanna fade  
And everybody turns away

There's some light  
In the shadow of your mind  
And the truth don't wanna slip away

She don't wanna know  
Its getting really gold  
And I'm tired of livin' all alone  
If its time  
If its time

If you want something then baby come and get it  
I've been lost a million times an I don't regret it  
If your colours wanting to shine and just can't speak  
Baby I'll be the one to send you right to sleep

When you close your eyes  
When you close your eyes  
When you close your eyes  
When you close your eyes

Your Eyes  
When you close your eyes  
When you close your eyes  
When you close your eyes
