It's Only Christmas

Ronan Keating

Do you remember what you wished for every Christmas Do you say a prayer and send it on our star Or maybe I'm just being over sentimental But now it's Christmas and I miss us most of all.

You know I never really took the time to thank you I was always thinking you were here to stay. Is it something in the air that gets me crazy 'Cause now its Christmas but I miss us just the same.

When it's cold, I get lonely I can't talk, I can't walk, I can't breath Then I dream and you hold me And the angels are singing with me I guess it's Christmas when I miss us most of all.

So let the snow come down and drown out all my sorrows And maybe I can dance again with you And as the children sing I swear I heard you whisper That now it's Christmas but I miss us just the same

When it's cold, I get lonely I can't talk, I can't walk, I can't breathe Then I dream and you hold me And the angels are singing with me I guess it's Christmas when I miss us most of all I guess it's Christmas when I miss us most of all 'Cause now it's Christmas and I miss us most of all
