

Time of My Life

Ronan Keating

I walk so close to your side
I go blind in your shadow
We are so happy we could die
Living in a dream world
I wake up, you're the sunlight in my hair
Close my eyes it's you again

Baby let me recklessly love you
I wanna be a perfect crime
All these hours they think that we're wasting
Will never be a waste of time
This is the time of my life
This is the time of my life

We did bad things for our own good
I know it all makes sense
Wrong moves in the right direction
Being cautious is no defense
I wake up, you're the rhythm in my head
I close my eyes it's you again

Baby let me recklessly love you
I wanna be a perfect man
All these hours they think that we're wasting
Will never be a waste of time
This is the time of my life
This is the time of my life

Never have to say you're sorry
It's always gonna be all right
Everything we've done or said doesn't have to hang around the whole time

Baby let me recklessly love you
I wanna be a perfect man
All these hours they think that we're wasting
Will never be a waste of time
This is the time of my life
This is the time of my life
