When the World Was Mine

Ronan Keating

It never rained, the Sun was always shining Every traffic light Was always green There was a time when Every door was open The universe was mine Or so it seemed Ever roll was seven or eleven That it would ever End never crossed my mind I was flying higher Than the Heavens Back when the World was mine Sometimes a man can't see When he has it all Take a look at me Oh how he mighty fall Once I ruled the earth Once upon a time When I had your love When the world was mine Oh the changes I'd make if I had the power How could I have so much And be so blind But at least for A bright and Shining moment I had you, and The world was mine Sometimes a man can't see When he has it all Take a look at me Oh how he mighty fall Once I ruled the earth Once upon a time When I had your love When the world was mine Once I ruled the earth Once upon a time When I had your love That's when The world was mine When I had your love That's when The world was mine
