

We'll rock the world

Ronan Parke

Baby (baby), you really got me thinking (thinking) I can't get you out of my mind it's like I got this voice deep inside tell me to come over (over) ask you for your number (number) In my head I'm already there but my feet are going nowhere (tudutududu) let me tell you know my heart is vulnerable (tudutududu) but I hear that anything is possible

And one day I won't be shy girl (day I won't be shy girl) then I swear I'll make you my girl (swear I'll make you my girl) I'll take you high, high, high, high baby we'll rock the world

Oh my (oh my) now you're passing by me (by me) get ready cuz this is my shot gotta give it all that I got I'll tell you how you make me weak I'd make you laugh if I could speak but the cat ran off with my tongue I only get it back when you are gone

Let you tell me now my love is serious (tudutududu) don't know how you make my heart delirious

And one day I won't be shy girl (day I won't be shy girl) then I swear I'll make you my girl (swear I'll make you my girl) I'll take you high, high, high, high baby we'll rock the world

And I'll take you to the funfair (take you to the funfair) we can go on every ride there (go on every ride there) I'll take you high, high, high, high baby we'll rock the world

If I had the nerve I'd take you by the hand (by the hand) and I'd do my best to make you understand (understand) that you'll always be one in a million (tudutududu) so don't give your heart away to anyone

And one day I won't be shy girl (day I won't be shy girl) then I swear I'll make you my girl (swear I'll make you my girl) I'll take you high, high, high, high baby we'll rock the world

And I'll take you to the funfair (take you to the funfair) we can go on every ride there (go on every ride there) I'll take you high, high, high, high baby we'll rock the world

(day I won't be shy girl) Yeah, yeah (swear I'll make you my girl) see I'll take you high Oh, baby we'll rock the world (take you to the funfair) (go on every ride there) yeah, yeah ...
