In Love

Ronnie Milsap

I can feel you wantin' to fall whenever I'm with you
I can tell you wanna give in the same way that I do
Love can be a hurtin' thing when faithless hearts deceive
I know you've been the fool before but baby you won't with me.

If only you believe, if only you believe
In love, it's what we make it
In love, we've got to be strong
In love, it's where I believe that we belong.

I find a reason for believing dreams come true
And I know enough to know I'm in love with you
Some people just gotta talk, they say love is on shaky ground
And every where you look these days
There's a broken heart going down, down, down.

Baby more than anything I want you in my life, yeah
Take my hand and show some faith and believe what you feel insi
de
Believe what you feel inside because I want what you feel insid
e.

In love, it's what we make it
In love, we've got to be strong
In love, it's where I believe that we belong.

I find a reason for believing dreams come true
And I know enough to know I'm in love with you
Baby, I feel it and I know you feel it too
So hold on to me, and I'll hold on to you.

In love, I find a reason for believing dreams come true
And I know enough to know I'm in love with you
In love, we've got to be strong
It's where I believe that we belong, yeah.

I find a reason for believing dreams come true
And I know enough to know I'm in love with you...
