

## Misery Loves Company

Ronnie Milsap

Well I've just left my home friends where I couldn't sleep  
For missin' a man that I couldn't keep  
She just walked out and left me for somebody else  
Now her memory keeps haunting me but I'm by myself

So break out the bottle bring on the crowd  
Tell funny stories turn the jukebox up loud  
Come on sit at my table where the drinks're on me  
Yes gather round me cause misery loves company

This is not the first time I lost everything  
To a false hearted woman with a false hearted dream  
But this is the first time I've suffered myself  
Help me get over this love  
I'll handle the next love all by myself

So break out the bottle  
Yes gather round me  
Cause misery loves company
