

Enjoy This Drive

Rookie of the Year

Hum along
If you find it in your heart to try it
And if you like you're betrayed.
With your presence felt
You show yourself with confidence.
Let it carry you away.
You're a little faster than you were before.
A little faster than you already were.
So when the lights go down, don't be shy.
Let's give this one last try.
This one is from me to you.
Sing alone
Enjoy this drive while you sit alone
As you find someone else to jade.
Just give this an hour
And let it explain itself to you.
Don't drive away.
And I won't go on saying this forever.
Don't do this, it's ridiculous.
And I won't let this go any further.
Let this line, win you over.
Rock n Roll girl come outside tonight.
Put your arms up in the moonlight.
We've been here before.
