

# What Is Love

Rookie of the Year

Crazy  
Maybe  
If it bugs me  
Someday  
And I never want to be the one to fall, to make you fall away  
you keep on pressure me, pressure me and bring me down  
but I don't know when to stop  
What is love, What is love  
She's been searching for rainbows  
What is love  
I go where ever the wind blows  
What is love  
Someone I can talk to every night  
Someone I can talk to every night  
The city  
Party  
A Taxi  
I'm leaving  
And I never want to be the one to fall, to make you fall away  
you keep on pressure me, pressure me and bring me down  
but I don't know when to stop  
What is love, What is love  
She's been searching for rainbows  
What is love  
I go where ever the wind blows  
What is love  
Someone I can talk to every night  
Someone I can talk to every night  
Do you feel in love?  
Would you feel in love if the pressure makes us?  
Do you feel in love?  
Would you feel in love if the pressure makes us?  
Because it's you, you, you  
You fit me perfectly  
It's always me me me  
Cast into the sea  
If we can see this through  
In perfect symmetry  
It was love  
What is love, What is love  
She's been searching for rainbows  
What is love  
I go where ever the wind blows  
What is love  
Someone I can talk to every night  
Someone I can talk to every night  
What is love, What is love  
She's been searching for rainbows  
What is love  
I go where ever the wind blows  
What is love  
Someone I can talk to every night  
Someone I can talk to every night  
Someone I can talk to every night  
Someone I can talk to every night  
What is love
