## Haunted

Every step I take I see your face In each way of pain In a house without your life Anymore Just donOt feel the same If I might not speak What my heart would say I let it be and go away

MidnightDs gone And itDs been too long I wanna shadow to want myself You left me wanting nothing else In this house

This house is haunted Since you left me, baby This heart is broken And IOm going crazy When you say OI love you Left me so consumed Your presence is in every room My heart is haunted Everything I wanted Left with you, baby IOm haunted

You say our love is gone It had to fail But I still feel you here Angels never cry Bring warmth outside Am I feeling heavenOs tears? so what I used to Is more than I could go away

Another sound is say But I can t forget Deep inside I feel the pain Cause I won t see you back again In this house

## Chours

ThereDs nothing left anymore Gotta let you go No shame, no hurt, no more I gotta let it go (oh yeah)

Chorus 2x
