

Not Jealous

Room Eleven

Blue lights flickering
From a very big state
The longer we watch it
The worse it gets

My voice is broken
And your back is all
Two sad faces
Watching the kids scream for more

No, were not jealous
You can perfectly well do without
No were not jealous
'cause you are my personal crowd

When are the lights
and the shoes to shine
Oh it isn't very easy
but we'll survive
No, were not jealous
you can perfectly well do without
No were not jealous
'cause you are my personal crowd

No were not jealous
no were not jealous
no were not jealous
'cause you are my personal
you are my personal
no were not jealous
no were not jealous
no were not jealous
'cause you are my personal
you are my personal... crowd
