

# I Can't Get Enough

Rooney

I like what you wear and I like how you move  
If I was staring it's because I'm in the mood  
I'm down with your love, come on hold out your hand  
I'll take you where I'm going, you wanna see the promised land

I tell you yes but you tell me no  
I ask why, you never let me know  
You close your eyes, I hold you tight  
But it's no surprise, I got no where to go  
Even if I try try, If I lie  
You're never gonna leave, leave me alone  
I'm going home, you call my bluff  
I can't get enough, can't get enough

I can't get enough

Give me a little time, take my mind anywhere  
Put on something special, anything, I don't care  
Just don't tell your friends, there's nothing left to see  
Cause if it gets around, it gets around, it's the end of me

I can't get enough

Don't blame yourself maybe I had too much to drink  
One less margarita, one more trip to the shrink--come on!

I can't get enough
