Stars and Stripes

Rooney

It's gonna take the world to change
It's time to start helping each other
There's nobody left to take the blame
We're all gonna have to take it together

Stars and stripes beyond the sky
They're painting their patriotic lie
Who said you were wrong to choose what you face to lose?
We can do better

Don't be afraid, there's nothing to fear
There's only so little time, my dear
What have we gained at the end of the day?
Just a bill that we can't pay

So what's the point in running?
Everyone's got something they don't want
So tell me what have you done with all that freedom you sit on?
Come and go, and take it all for granted
