

How Much Longer

Rootz Underground

How much longer will we waste away by the side of the
road
How much longer will they enslave my mind, even my body
and soul
Feel much stronger over my enemies they don't got know
love at all
Some youth say dem a soldier, I ask them what them
really fighting for

How much longer we asked you
You gonna play in those games of disaster
When I know that Ras Tafari light our way
I know the only way for I now is the Emperor
So I play, dem a wonder how I groove so
And I pray and day and night it goes through
On my way, I hear Jah voice is calling you too
It's calling you, I said it's calling you til a warrior
cry!

How much longer will we be weak just because they say
we shall
How much longer they lock the prophets away now in the
mental hospital
Feel much stronger, over my enemies they aint got no
love at all
Dem aiming privily at me but I know them bound to fall,
bound to fall

Mix

How much longer them end up in disaster
I can see that them days move faster
Even now that them back against the wall
Just because robber Babylon a fall
In them pot is witches brew
They don't care about me nor you
Innoculation on our brain
Check a stock that's all they do

How much longer them fly gone space
Building colonies on the moon
Children here are starving on earth
INI just want some food
How much longer them beating I
How much longer them killing I
How much longer deceiving I
Until a warrior cry
Right now we're drinking from Jah spiritual cup
Meanwhile Babylon break it down, we a gu build it up
We drinking from Jah musical bowl
Meanwhile Babylon break it down, we a gu a build it up
your soul
