

When I'm in distress, remember I am blessed
Head up to my Riverstone
My help comes from the hills and valley roads
And still you know where going home
And JAH know my heart has taken the blows and still you
know we will stand strong
Give thanks for my Riverstone, If they could understand
We been apart but now I'm Home
JAH love is my Riverstone
In the Midst of tribulation well
On my Riverstone, I take a deep breath
Remember where I'm coming from
There were darker days, JAH lead I through the maze
And still you know we will sand strong
Now the River refreshes me like the voices of angels
The ones who they, have gone before
Give thanks for my Riverstone
If they could overstand, We have been apart but now I'm
home
JAH love is my Riverstone (3x)
In the Midst of tribulation there's always JAH love
Children, Don't Cry no more
When I'm in distress, remember I am blessed
Head up to my Riverstone
My help comes from the hills and valley roads
And still you know where going home
And JAH know my heart has taken the blows and still you
know we will stand strong
Give thanks for my Riverstone, If they could understand
We been apart but now I'm Home
JAH love is my Riverstone (3x)
In the Midst of tribulation there's always JAH love
Children, Don't Cry no more
