

Can't Believe It's True

Rory Gallagher

Can't believe it's true
I can't believe it's true
Baby, where are you?
Baby, where are you?

In the night I'm walking in my sleep
A lonely man who just can't get no peace
Oh how I wish I just could see your face
And then I would walk the floor pace by pace

Clock on the wall
Why do you bother to chime at all
Clock on the wall
Why does this have to happen at all

In the day I'm walking on the street
Hear the sound, steps walking after me
That's just trouble, follow with me about
And that is one thing I can't do without

Clock on the wall
Why do you bother to chime at all
Spot on the wall
Did I really see it moving at all

Can't believe it's true
I can't believe it's true
I wonder where are you
I wonder where are you

And in the night I'm talking in my sleep
The things I say I just, just can't repeat
Don't need no fingerprints to know
You've got your hands on my very soul

Clock on the wall
Why do you bother to chime at all
Clock on the wall
Why does this have to happen at all
