**Rosanne Cash** 

Everyday now I hear people say My ship is sailin' could be any day Any day now it might not feel so blue My baby tells me stop and look around If you ain't careful, Hon, you're trouble bound Run home for cover and you might not find none there He say there ain't no money in this runnin' around Can't make money stayin' at home And there ain't no future in the way that it feels today Baby there ain't no money Baby there ain't no money Baby there ain't no money in the ones that you really love

I try and tell 'em, baby, straight and true No love or money tells you what to do You're born to ramble baby that's what I was too Just breakin' even even if I lose Ol' lucky seven put his hold on you I got your number baby any way you move Baby there ain't no money and that's for sure Ain't no money behind no doors And there ain't no trouble that a poor boy won't go through Baby there ain't no money I aby there ain't no money in the ones you really love (No running around - just staying at home)
