I throw your roses in the fire
To make the flames a little higher
I watch your roses turn to dust
I know no man that I can trust

I throw your roses in the fire 'Cause I burn up with pity and desire I'll be your vision dressed in black Who won't be back

Another woman's on the phone
Pick it up
Tell her you're home
I see your face turn into broken glass
Talking slow
Thinking fast

I throw your roses in the fire
No one could say I didn't try
I watch your roses fall like tears
I've crawled this path for all these years

I throw your roses in the fire To burn away the old desire We were a desperate pair of souls So let me go

Another woman has her point of view
Let her talk
Now that we're through
I see your face retreat behind the glass
Listening slow
Sinking fast

Oh I'll kill you if we can't be friends
I'll bleed like diamonds running through your hands
I'll be a bitter taste you can't forget
And I won't leave this world until you relent

I throw your roses in the fire To burn away the old desire I watch your roses turn to dust I know no man that I can trust

I throw your roses in the fire
To make the flames a little higher
I'll be your vision dressed in black
Who won't be back
I won't be back
I won't be back
