

# Leave Me For Dead

Rosetta Stone

To stand mortified  
Deceit can't hide the error inside  
The words you say  
Don't stand they fall  
Amongst the tangled lies you make  
Believe are true, convince yourself  
It's me not you  
That delivers pain and comes between

Tonight - shame me with the thoughts I am denied  
Tonight - shame me, shame me

Or leave me for dead...

It's natural to feel like this  
Remember times when nights are long  
I've lost the means to carry on  
I think it's time to realise  
There's no time left no time at all  
So take what's mine I want what's yours

Tonight...
