

# One Wish

Rosette

It never feels right when we're apart,  
And it's even harder now,  
Watching the light shine bright as the snow falls down.  
Everybody's rushing home tonight,  
To be together,  
But baby you're so far away,  
So I just had to call you to say.

I don't need a thing,  
Don't need the whitest snow or the tallest tree,  
Just one wish, one wish,  
That I could be with you this christmas.  
I don't need a thing,  
Don't need the brightest star shining over me,  
Just one wish, one wish,  
That I could be with you this christmas.

Remember we were lost in our first kiss,  
Underneath the misletoe,  
It was only last year but now it seems long ago.  
What I wouldn't do to see your face,  
To have you near me now,  
But baby you're so far away,  
So I just had to call you to say.

I don't need a thing,  
Don't need the whitest snow or the tallest tree,  
Just one wish, one wish,  
That I could be with you this christmas.  
I don't need a thing,  
Don't need the brightest star shining over me,  
Just one wish, one wish,  
That I could be with you this christmas

And if I have to spend tonight alone,  
At least I've got you on the phone,  
And in my heart I feel you here with me.

I don't need a thing,  
Don't need the whitest snow or the tallest tree,  
Just one wish, one wish,  
That I could be with you this christmas.  
I don't need a thing,  
Don't need the brightest star shining over me,  
Just one wish, one wish,  
That I could be with you this christmas.

I don't need a thing,  
Don't need the whitest snow or the tallest tree,  
Just one wish, one wish,  
That I could be with you this christmas.  
I don't need a thing,  
Don't need the brightest star shining over me,  
Just one wish, one wish,  
That I could be with you this christmas.

I don't need a thing,

Don't need the whitest snow or the tallest tree,  
Just one wish, one wish,  
That I could be with you this christmas.  
I don't need a thing,  
Don't need the brightest star shining over me,  
Just one wish, one wish,  
That I could be with you this christmas
