

# I Like You

Rosi Golan

A thousand bits, a million parts, tiny pieces that make your heart  
art  
And I like you  
I heard you whistle, the song we dance to, you remember the smallest detail  
And I like you

Ooo ooo ooo ooo I like you  
You ooo ooo ooo I like you

Our footprints rearranged the leaves, you pulled me tight, and  
said you see  
I like you  
You wrote your name on my sleeve so I can keep you always with  
me  
And I like you

Ooo ooo ooo ooo I like you  
You ooo ooo ooo I like you

The creases in the corners of your mouth when they curl into a  
smile  
That forms around you like a giant light, and warms me from the  
inside

And we'll grow up, but not just yet, stay here longer so we don't  
forget  
I like you
