

# Shine

Rosi Golan

This life is light,  
Its light burns bright.  
So we'll take it day by day, and let it be.  
And everyone will see, how good it feels.  
Oh they'll see the world for all that it could be.

Oh let the sunlight in.  
I wanna feel it from within.  
You spin me around and make me feel like I could  
shine, shine.

So what do you say, if the sky turned gray?  
With a kiss you send the rain clouds on their way.

Oh let the sunlight in.  
I wanna feel it from within.  
You spin me around and make me feel like I could  
shine, shine, shine.

This life is light,  
Its light burns bright.  
Every moment is a moment you could say,

Oh let the sunlight in.  
I wanna feel it from within.  
Spin me around and make me feel like I could  
shine, shine.

Let the sunlight in.  
I wanna feel it from within,  
You spin me around and make me feel like I could  
shine, shine, shine, shine.
