Gradually

Rosie Thomas

Gradually I will get wiser I will get stronger I will be bolder I will not settle I will fight back and I will stand up or I will sit back All this time you thought I was weak when I was just pretending I was just pretending then All this time you Made me believe that I should be sorry I should be sorry Gradually I will outrun you I will outgrow you I will ignore you I will see clearer I'll overcome and I will acknowledge how Far i have come All this time you thought I was weak when I was just pretending I was just pretending then All this time you Made me believe that I should be sorry You should be sorry For making me fall Loo da da da da... Gradually I will get older and I will get wiser and I will move slower I will see clearer

All this time
You made me believe that

You thought i was weak when I was just pretending and I was just pretending and

I'll overcome and
I will acknowledge how

Far i have come

All this time

I should be sorry You should be sorry for Making me fall

Loo da da da da...
