

If This City Never Sleeps

Rosie Thomas

Ooh, at night when I sleep all the dreams come to me
Make me believe that my life is not migro
And if life like my dreams, all the things I would see
I would be so much braver than I know

No, I can't understand what it means to be a man
And to leave a woman from her heart
And if love would indeed all the things I'd believed
Then I guess I'll never feel alone

Oh, will I ever know

And if they said he never sleeps
Thus that mean that no one dreams
And if that's so then I guess I'm going home
