

# Is This Love

Rosie Thomas

Is this how it begins?  
Spending hours in the car being friends  
Is this love?  
Can it be?  
When I wasn't looking around  
He came to me

Now every place that he goes I'd like to be  
There are thoughts that he only shares with me  
Every dream that he has I would help him reach  
I would love him, I could love him  
If he ever let me

Is this love?  
Is this love?  
When all I ever want to do is lift him up  
Is this love?  
Can it be?  
Every part of me that's missing he completes

Now every place that I go I'd like him to be  
Though he's always walking way ahead of me  
He may run he may hide, but he never leaves  
I would love him, I could love him  
Yes, I would love him, I could love him  
If he ever let me
