

# Over The Moon

Rosie Thomas

When I think of your love  
It puts a joy in my step  
The way you play with my heart  
Makes me your instrument  
When I'm walking with you  
Feels like I'm walking on clouds  
And I always feel up just by you being around

Cuz you fill me with love, yeah you fill me with love  
You fill me with love, and I'm over the moon  
In love with you

When I think of your hands  
When I think of your grin  
The way you light up the room  
Just by you walking in  
Makes me feel like a child  
Makes me sing out of tune  
I get this beat in my heart when I'm lying with you

Cuz you fill me with love, yeah you fill me with love  
You fill me with love, and I'm over the moon in love with you

I knew the first time you held my hand that it'd be you  
Who'd come through, who'd come through

Cuz you fill me with love, yeah you fill me with love  
You fill me with love, and I'm over the moon in love with you
