

# Lucky Day

Ross Copperman

You can search  
You can plan  
But you can't hold  
Ten thousand grains of sand  
You can walk  
Down the road  
But you can't turn  
Turn over every stone

I've been waiting for someone  
To come along  
Love won't be wrong

One day I'll find her  
Stood right beside her  
And tell her all the things I feel  
It might take a lifetime  
But I'll know the right time  
Coz everything will go my way  
This could be my lucky day

She comes to me  
In a dream  
All my life  
She is so real to me  
Everyday  
There's a chance  
I'd pass her by  
Without a second glance

I've been waiting for someone  
To come along  
Love won't be wrong

One day I'll find her  
Stood right beside her  
And tell her all the things I feel  
It might take a lifetime  
But I'll know the right time  
Coz everything will go my way  
This could be my lucky day

This could be my lucky day  
This could be my lucky day

One day I'll find her  
Stood right beside her  
And tell her all the things I feel  
It might take a lifetime  
But I'll know the right time  
Coz everything will go my way  
Yeah everything will be in place  
This could be my lucky day  
This could be my lucky day
