

We Belong

Ross Copperman

Oh, I can't believe what we have done
We both choose the battle lines, but neither of us won
And now you've gone and left me with no choice
It's lonely and I'm hallow here
Just the sound of my own voice
Calling back, calling back

Well, you took the best of me
Every part and every piece
Guess I knew it all along
Like a melody and song
We belong, we belong

Don't know if I'll recover from this fall
I've been too long without you now
It's getting harder to recall
The way we were just you and me back then
When we were only whole
We were unbroken
Put us back, put us back

Well, you took the best of me
Every part and every piece
Guess I knew it all along
Like a melody and song
We belong, we belong

We could dig, we could dig, we could dig down deep
And with our mistakes, we could bury these
We could dig, we could dig, we could dig down deep
We can start again, why couldn't we?
[x2]

Well, you took the best of me
Every part and every piece
Guess I knew it all along
A melody and song
We belong
