

# We Belong

Ross Copperman

Oh, I can't believe what we have done  
We both choose the battle lines, but neither of us won  
And now you've gone and left me with no choice  
It's lonely and I'm hallow here  
Just the sound of my own voice  
Calling back, calling back

Well, you took the best of me  
Every part and every piece  
Guess I knew it all along  
Like a melody and song  
We belong, we belong

Don't know if I'll recover from this fall  
I've been too long without you now  
It's getting harder to recall  
The way we were just you and me back then  
When we were only whole  
We were unbroken  
Put us back, put us back

Well, you took the best of me  
Every part and every piece  
Guess I knew it all along  
Like a melody and song  
We belong, we belong

We could dig, we could dig, we could dig down deep  
And with our mistakes, we could bury these  
We could dig, we could dig, we could dig down deep  
We can start again, why couldn't we?  
[x2]

Well, you took the best of me  
Every part and every piece  
Guess I knew it all along  
A melody and song  
We belong
