

# Better Together

Ross Lynch

Uh-huh oh oh, Uh-huh oh oh oh

Sometimes, I get in my own way  
I need someone to say  
"Hey, what are you thinking?"  
Your words, they're always just in time  
Just like a perfect rhyme  
Like, you're not even trying

Like pieces of a puzzle  
Without each other,  
We're in trouble, trouble

Hey, I will always stay  
By your side forever  
'Cause we're better together  
Hey, there's no other way  
We'll make it through whatever  
'Cause we're better together

Uh-huh oh oh, uh-huh oh oh oh

Remind me when I'm losing touch  
When I'm a little much  
Pull me back to reality  
You keep my feet on the ground  
'Cause when you're not around  
I feel I am floating

Like pieces of a puzzle  
Without each other,  
We're in trouble, trouble

Hey, I will always stay  
By your side forever  
'Cause we're better together  
Hey, there's no other way  
We'll make it through whatever  
'Cause we're better together

Like the waves need the sand to crash on  
Like the sun needs a world to shine on  
You're the bright side of every day  
Me without you just isn't the same  
It's not the same

Better,  
We're better  
Oh-oh  
We're better together!

Hey, I will always stay (stay)  
By your side forever (ever)  
'Cause we're better together  
Hey, there's no other way  
We'll make it through whatever  
We're better together

Hey, I will always stay (I will always stay)  
By your side forever  
'Cause we're better together  
Hey, there's no other way  
We'll make it through whatever (whatever)  
'Cause we're better together

Uh-huh oh oh, uh-huh oh oh oh
