

Double Take

Ross Lynch

Flip a switch
Turn on the lightning
Get it right
Show 'em how it's done

Free it up
No matter how you dress that song
Girl you know
You got a number one

Go with it
You got 'em where you want 'em
Drop the beat
They need to hear your sound
Play it up
I'm coming down to you right now

They want to know know know
Your name name name
They want the girl girl girl
With game game game

And when they look look look
Your way way way
You're gonna make (make) make (make)
Make 'em do a double take
Make 'em do a double take
Yeah yeah

This could be
An overnight sensation
You and me
Tearing up the floor
Let it go
This party's up to you right now
Know know know
Your name name name
They want the girl girl girl
With game game game

And when they look look look
Your way way way
You're gonna make (make) make (make)
Make 'em do a double take

Make 'em do a double take
Uh
C'mon

They want to know know know
Your name name name
They want the girl girl girl
With game game game

And when they look look look
Your way way way
You're make (make) make (make)

Make 'em do a double tke

Want to know know know

Your name name name

They want the girl girl girl

With game game game

And when they look look look

Your way way way

You're gonna make (make) make (make)

Make 'em do a double take
