

Face To Face

Ross Lynch

I've been trying to reach you,
You know I've been working at the studio.
We should write a new song.
Maybe they'll play it on the radio!

When can we get together?
Let's not wait another day.
Don't forget your guitar!!
Got it already and I'm on my way.

It's been
So long since I've saw you!
I was wondering if you were even real.

Now I can't believe my eyes, yeah, you're not pretend!
I thought you might be my imaginary friend,
You're like a star that landed in from outer space,
My world has got a whole lot brighter,
Now that I can see you face to face!

Imaginary friends can't take your place!
I need to see ya, I need to see ya...
With you and me just talking face to face!
Face to face..

Now I can't believe my eyes, yeah, you're not pretend,
I thought you might be my imaginary friend,
You know that no one else can ever take your place,
My world has just got a whole lot brighter,
Now that I can see you face to face, face to face.
Now that I can see you face to face.

Let's go get some pancakes!
I just wanna see you face to face.
It's a party everyday!
I just wanna see you face to face
So later
Yeah, yeah, yeah!
