

Heard It On The Radio

Ross Lynch

What up?!

Summer in the sand
He's a drummer in the band
Drop the beach
He's a DJ at the boardwalk
I smile and I tan
And her sandals in her hand
Rockin' her shades
You could almost see the eyes lock
What could be better
Than a party in the weather
With the both of us together
In the backdrop?
Everything was right
And the day turned into night
With the music and the lights
That's when we stop

Oh, I heard it on the radio
Sing it out loud
Oh, Coming down to see your show
Uh, Uh, oh,
Everybody now
I heard it on the radio
Oh, Ohoo
Uh, Uh, Oh
Everybody now
Coming down to see your show
Play it back, play it back
One time yeah
I heard it on the radio

Board and a wet suit
On the day we met
You said, I'd think if you were
Catching a wave
Shorts and a jet ski
All the other summer things
Kickin it in the sun
All day
We only got time for each other
And we only got time for the summer
Everybody knows
If you gotta let it go
Take the chance
Make it go your way

Oh, I heard it on the radio
Sing it out loud

Oh, Coming down to see your show
Uh, Uh, oh,
Everybody now
I heard it on the radio
Oh, Ohoo
Uh, Uh, Oh
Everybody now

Coming down to see your show
Play it back, play it back
One time yeah
I heard it on the radio

Listen to the story 'bout the party
'bout the glory, 'bout the summer that would raise the bar
Anyone will tell you
It was chillin', it was stellar
The best time we
