Ross Lynch

I can get your heartbeat beat beat beating like  
I can get your hearbeat beating like that  
You know you got my heartbeat beat beat beating like eh eh eh eh

Would you would you want it if i stood up above the crowd  
Got up on a chair and if I shouted you name out loud  
Could you could you take it call me baby without a doubt  
I'm shouting you name right now, shouting you name right now

Don't you don't you get it I'm nothing like them other ones  
Raise up on a notion, I ain't hosting no re-runs  
I said it said it said it  
Wouldn't let it be all or none  
Cuz i ain't no re-run i aint no re-run

I'll make you forget what you came here for  
for goodness sake lets make or break this heart cuz it needs more

I can get your heart beat beat beat beating like  
I can get your heart beat beating like that  
You know you got my heart beat beat beat beating like eh eh eh eh

I can get your heart beat beat beat beating like  
I can get your heart beat beating like that  
You know you got my heart beat beat beat beating like eh eh eh eh  
eh

Would you want want want if I opened your gate at night  
took you by the hand and make your heart beat at the speed of light  
Could you could you take it if i treated you just right  
Your heart as the speed of light my heart at the speed of light

Juggling them consequences, losing your blue suede  
Might as well go cuz were already half way  
Were only young once so grow up with me babe we're already  
halfway already half way

I can make you forget what you came here for  
for goodness sake lets make or break this heart cuz it needs more

I can get your heart beat beat beat beating like  
I can get your heart beat beating like that  
You know you got my heart beat beat beat beating like eh eh eh eh  
eh

I can get your heart beat beat beat beating like

You know you got my heart beat beat beat beating like eh eh eh eh
